1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William L. Brooks on March 31, 2005.

The application has been amended as follows:

In claim 1, last paragraph, " wherein...end" has been deleted. It is redundant.

On line 19, " end" is now—end of a respective vane—.

In claim 2, line 10, " where the edge parts" is now—where edge parts—; and at the end of the claim " end." Is now – end of a respective vane—.

In claim 3, line 12, and claim 4, line 2, " or the metal pieces" has been deleted.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: figure 5 to be labeled as " Prior Art" . In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: The examiner could not find fair suggestion in the prior art cited by applicant or in the AIGA et al(5,049,782) for the magnetron having vanes and pole pieces arranged so that the resonance frequency of the mode resulting from the space between the side surfaces of the vanes and surface adjacent the inner ends of the pole pieces allows a frequency between pi and pi-1 mode. The

references above show the magnetron system with vanes and pole pieces but do not suggest operation between the pi and pi-1 modes with the configuration as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold M. Kinkead whose telephone number is 571-272-1763. The examiner can normally be reached on Mon-Fri, 8:30 am -5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on 571-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
